STATEMENT OF WORK #67

This Statement of Work together with any attachments (the “**Statement of Work**”) is dated as of the date of the last signature below (the “**Effective Date**”) and is by and between **Metsera, Inc.**, having its principal place of business 1200 Morris Turnpike, Suite 3005, Short Hills, NJ 07078, USA (“**Metsera**”), and **Altasciences Preclinical Columbia, LLC** with a principal place of business at 562 State Road DD, Auxvasse, MO 65231 (“**Service Provider**”), and, upon execution, will be incorporated into, subject to and governed by the Master Services Agreement between Metsera and Service Provider dated October 17, 2023 (the “**Agreement**”). Capitalized terms not otherwise defined in this Statement of Work shall have the same meaning as set forth in the Agreement. Metsera hereby engages Service Provider to provide Services, as follows:

Services. Attached hereto and incorporated herein as a part of this Statement of Work is a detailed description of the Services (including any specifications, Materials (provided by Metsera) and Deliverables) to be provided by Service Provider under this Statement of Work in connection with the Study entitled “**A 28-Day Toxicity Study in Göttingen Minipigs of MET097 with a 14-Day Recovery Period (GLP)**” (the “**Study**”) in compliance with the requirements set out in the attached quote #24-9008 (“**Attachment 1**”). Service Provider will perform the Services in accordance with the terms of this Statement of Work and the Agreement. All Records will be provided to Metsera in a mutually agreed to format.

1. Estimated Timeline/Statement of Work Term. The Services will commence upon full execution of this Statement of Work and all Services and Deliverables due hereunder are anticipated to be completed by December 31, 2025. This Statement of Work will terminate when the Services are completed and Deliverables are accepted by Metsera. The timeline may be extended by mutual written agreement by the Parties. Any agreed upon intermediate timelines shall be set forth in the description of Services in the applicable Protocol.

2. Project Leader. Service Provider shall appoint a “**Project Leader**” after the Statement of Work is executed.

3. Budget and Payment. Metsera will compensate Service Provider for the Services performed hereunder in accordance with the Budget and Payment Schedule set forth below. In any event, total payments under this Statement of Work, shall not exceed **Four Hundred Eighty-One Thousand Six Hundred Sixty Dollars (\$481,660.00 USD)**

Service Fee

\$ 96,332.00	(20%)	at the signature of the Statement of Work;
\$ 144,498.00	(30%)	at the start of in-life;
\$ 192,664.00	(40%)	at the end of study in-life;
\$ 19,266.40	(4%)	at shipment of the Draft Report.

Deliverable Fee

\$ 28,899.60	(6%)	at shipment of the Draft Report.
--------------	------	----------------------------------

Total Study Fee

\$ 481,660.00	Amount represents 100% of Study Fee (Service Fee and Deliverable Fee)	
---------------	---	--

Payments preferably to be received by Electronic Funds Transfer to the following:

Beneficiary: Altasciences Preclinical Columbia, LLC
562 State Road DD
Auxvasse, MO 65231
Bank Name: BMO Harris
Routing No.: 071000288
Account No.: 4049466

Email address for submission of invoices: ap@metsera.com
Sponsor Purchasing Contact (email): susan.barker@populationhp.com
Purchase Order # MET-0480

5. STORAGE

5.1 DELIVERABLES, TEST ARTICLE, & SAMPLES

The Deliverables, Test Articles, and Samples will be stored for one (1) year following shipment of the final report or final deliverable. Following this period, all Deliverables, Test Articles, and Samples will be returned to the Sponsor, destroyed, or stored at Sponsor's expense based on current rates as reflected in an Archive Price Summary executed by both Parties.

5.2 DOCUMENTS

Service Provider will maintain documentation for the Services and Deliverables in accordance with all Applicable Laws and all applicable authorities' regulations. Service Provider will archive, at its own cost, all records for one (1) year following shipment of the final report and related Deliverables, as outlined in the estimate or the final deliverable, if no report, as reflected in an Archive Price Summary executed by both Parties.

6. TERMINATION/DELAY - ANIMAL STUDIES

For animal studies, delay and termination charges will be assessed as outlined in Section 3 of the Agreement and detailed in a fully executed Change Order.

7. All terms and conditions of the Agreement apply to this Statement of Work.

8. This Statement of Work may be executed electronically by pdf or facsimile and in any number of counterparts, each of which when so executed and delivered shall be an original, but all of which shall constitute one and the same instrument.

IN WITNESS WHEREOF, the Parties hereto have caused this Statement of Work to be executed by their duly authorized representatives as of the date of the last signature below.

ATTACHMENT 1**A 28-Day Toxicity Study in Göttingen Minipigs of MET097 with a 14-Day Recovery Period (GLP)**

INQUIRY # 24-9008			
SPONSOR	Metsera, Inc.		
ACCOUNT MANAGER	Lyric Boyle	STUDY NUMBER	2268.99
VERSION NUMBER	1	STUDY CODE	TOX1

ITEM	REFERENCE	PRICE
MAIN STUDY		\$374,250.00
DOSE CONCENTRATION ANALYSIS		Not required
TOXICOKINETIC SAMPLE ANALYSIS	620 Samples (Price includes cost for 10% ISR samples)	\$71,280.00
TOXICOKINETIC REPORT	WinNonlin – 60 Profiles	\$21,890.00
SEND	18 Domains	\$14,240.00
TOTAL		\$481,660.00
(QUOTE VALID FOR 90 DAYS FROM 14-OCT-24) ¹ ANIMAL PRICES SUBJECT TO MARKET CHANGE		

STUDY DESIGN					
TEST SYSTEM	Naïve, Göttingen Minipigs, ~3-4 months of age at initiation of study				
NUMBER OF ANIMALS	40 animals (20♂/20♀) and 0 spares				
HOUSING	All animals will be socially housed during the study unless scientific justification is provided				
ACCLIMATION	Up to 14 days				
TEST ARTICLE PREP ^{2,3}	Provided ready for use				
DOSING PERIOD	Once daily for 28 days				
RECOVERY PERIOD	14-day treatment-free period following date of terminal necropsy				
STUDY LENGTH	42 days				
REGULATIONS	FDA GLP				
GROUP	TEST ARTICLE	DOSE LEVEL	DOSE ROUTE	NUMBER OF ANIMALS	
				MALES (♂)	FEMALES (♀)
1	Vehicle	0	Oral (tablet)	3 ^a +2 ^b	3 ^a +2 ^b
2	MET097	Low	Oral (tablet)	3 ^a +2 ^b	3 ^a +2 ^b
3	MET097	Mid	Oral (tablet)	3 ^a +2 ^b	3 ^a +2 ^b
4	MET097	High	Oral (tablet)	3 ^a +2 ^b	3 ^a +2 ^b

^a Terminal Necropsy, Day 29^b Recovery Necropsy, Day 42

STUDY DETAILS		
PROCEDURE	TIMEPOINTS	NOTES
DOSE CONCENTRATION ANALYSIS		Not Required
CLINICAL OBSERVATIONS	Twice daily mortality checks, Once daily cage side observations	
DETAILED CLINICAL OBSERVATIONS	Weekly	
FOOD CONSUMPTION	Daily	Qualitative
BODY WEIGHTS	Weekly	
OPHTHALMOLOGY	Once during acclimation, Once during Week 4	Week 6 to be added by amendment
ECGs (NON-TELEMETRY)	Once during acclimation, Once during Week 4	Week 6 to be added by amendment
HEMATOLOGY	Once during acclimation, Once during Weeks 4 and 6	Standard panel
SERUM CHEMISTRY	Once during acclimation,	Standard panel

STUDY DETAILS		
PROCEDURE	TIMEPOINTS	NOTES
	Once during Weeks 4 and 6	
COAGULATION	Once during acclimation, Once during Weeks 4 and 6	Standard panel
URINALYSIS	Once during acclimation, Once during Weeks 4 and 6	Standard panel
TK BLOOD DRAWS	Group 1 Day 1 (1 time point) Day 28 (1 time point) Groups 2-4 Day 1 (10 time points) Day 28 (10 time points)	2 aliquots Analysis performed by Altasciences via LC-MS/MS. Method validation performed under standalone Altasciences Study/Inquiry No. TBD ⁴
TK DATA EVALUATION & REPORTING	WinNonlin • Single analyte • 3 dose levels	Noncompartmental TK analysis (Phoenix WinNonlin) performed by Altasciences, may include: Cmax, Tmax, AUC0-t or AUClast, AUCINF, HL and dose-normalized parameters & accumulation ratios
NECROPSY & TISSUE COLLECTION	All Animals	Standard tissue list
BONE MARROW SMEARS	All Animals	Bone marrow smears will be prepared for all animals at necropsy. Examination of smears can be added by amendment.
ORGAN WEIGHTS	All Animals	Standard tissue list
HISTOPATHOLOGY	Paraffin embedding • All Animals: Standard tissue list Slide prep with H&E stain • All Animals: Standard tissue list Slide reading • Group 1: Standard tissue list • Group 2: N/A • Group 3: N/A • Group 4: Standard tissue list	Processing and evaluation of tissues (held in fixative) from groups 2-3 Tox animals can be added by amendment
STATISTICAL ANALYSIS		Anova/Bartlett's (Comparative)
REPORT		Standard draft and final report Draft and Final CTD Table provided
ARCHIVE		1 year
SEND		<u>Final Dataset</u> Following delivery of final study report

¹Pricing is based on the information provided by the Sponsor at the time of inquiry. Final pricing will be based on the signed protocol and amendments.

²Sponsor shall notify CRO if any of the compounds to be handled have potential risks for personnel. If there are potential risks, then safe handling procedures shall be discussed. If such procedures are not in place, CRO may implement these safe handling procedures or decline the work.

³Test article (TA) must be received and formulation information finalized 72 hours prior to dosing at the latest. If TA is not received or formulation details change within 72 hours of dosing, the study will be rescheduled. This does not apply to straight transfers of test article, where no formulation is required. Costs associated with a delay may be charged to the Sponsor.

⁴Domestic and/or International shipments via standard courier; frozen samples shipped on ice packs or dry ice. Sponsor will arrange/provide any required permits and information prior to study start.
